

A leading recruiter for the energy and technical sectors in the USA

Combining motivational matching with technical excellence to drive future growth. We positively change lives through unrivalled organization of highly motivated resources

Client Review

"The Rise team are a model of professionalism in the recruitment industry. They helped build a team from 10 to 20 people in only 18 months, while providing qualified and incredibly talented team members.

Their vigor and understanding of the needs for our company has been extraordinary. I highly recommend working with their team if your company is experiencing significant and rapid growth. It has been a pleasure to work with Rise."

Candidate Review

"Honestly, this is one of the best recruiting companies I have ever worked with. Rise was extremely helpful, insightful, and went above and beyond to help me secure a permanent position with a company that I not only wanted, but aligned well with my experience in the logistics field. I am excited to be starting my new role in 2 weeks! Even when I wasn't confident that I would get the job, they were confident enough for the both of us. Thanks again for making the whole interview process, and experience run smoothly. I highly recommend Rise technical recruitment."

We know energy recruitment inside out

The American energy industry is constantly evolving.
We're here to help you stay on top.

We exist to positively change lives through organization of highly motivated resources. Combining motivational matching with technical excellence to drive future growth.

We've been matching great businesses with great technical talent for nearly two decades. We believe in keeping things straightforward and focusing on exceptional quality, skillful efficiency and well-considered connections.

It is our people-first service and tailored approach that keeps business thriving, candidates rising and Rise going from strength to strength.

In their own words

“Conor did a stellar job delivering a utility scale solar electrical estimator. Our lines of communication flowed well. Every step of the way even on his off days, felt like the Rise team had everything well put together. Looking forward to doing more business soon! ”

“It was a pleasure dealing with everyone at Rise Technical and I had the opportunity to work with Lucas in helping find candidates. When I get busy with other top priority work issues, I brought on Lucas in helping fill roles.

He listens to my needs and what specific skills I am in need of and he checks in almost daily with updates and a status of where we are and ultimately, brings me qualified candidates. It has been a great experience working with him and I will continue to do so in the future ”

“I would have no hesitation in recommending Rise to help with any requirements in the staff industry. ”

“Having had some real issues with agencies in the past I want to say that I have found Stefan and the team at Rise really helpful, professional and flexible. We needed an number of Engineers quickly and could not have found them without their help. To be honest, it's taken a weight off my work load and I've got some really good people from them! ”

“After months and months of trying to fill manufacturing positions with agencies, I decided to give Rise a chance. With us in Texas and the company based out of UK I wasn't sure what this would be like. I was very pleasantly surprised.

From the first phone call I knew by the questions Jake was asking me, he knew what he was doing. With their overall excellent follow-up, follow-through and solid qualified candidates, we are thrilled to work with Rise. We've now been able to easily hire 9 new employees for multiple different roles because of their expertise. So refreshing to work with you & your easy process, thank you! ”
